Department of the Army Mobilization Processing System (DAMPS)

MAJ Rosewitz, DAMO-ODM
703-614-4811

24 July 2003

paul.rosewitz@hqda-aoc.army.pentagon.mil

PURPOSE

TO PROVIDE AN OVERVIEW OF THE DEPARTMENT OF THE ARMY MOBILIZATION PROCESSING SYSTEM (DAMPS) AND THE ROAD AHEAD FOR ARMY MOBILIZATION AUTOMATION PROCESSING FROM FORCE PROVIDERS THROUGH HQDA.

WHY DAMPS?

Department of the Army Mobilization Processing System
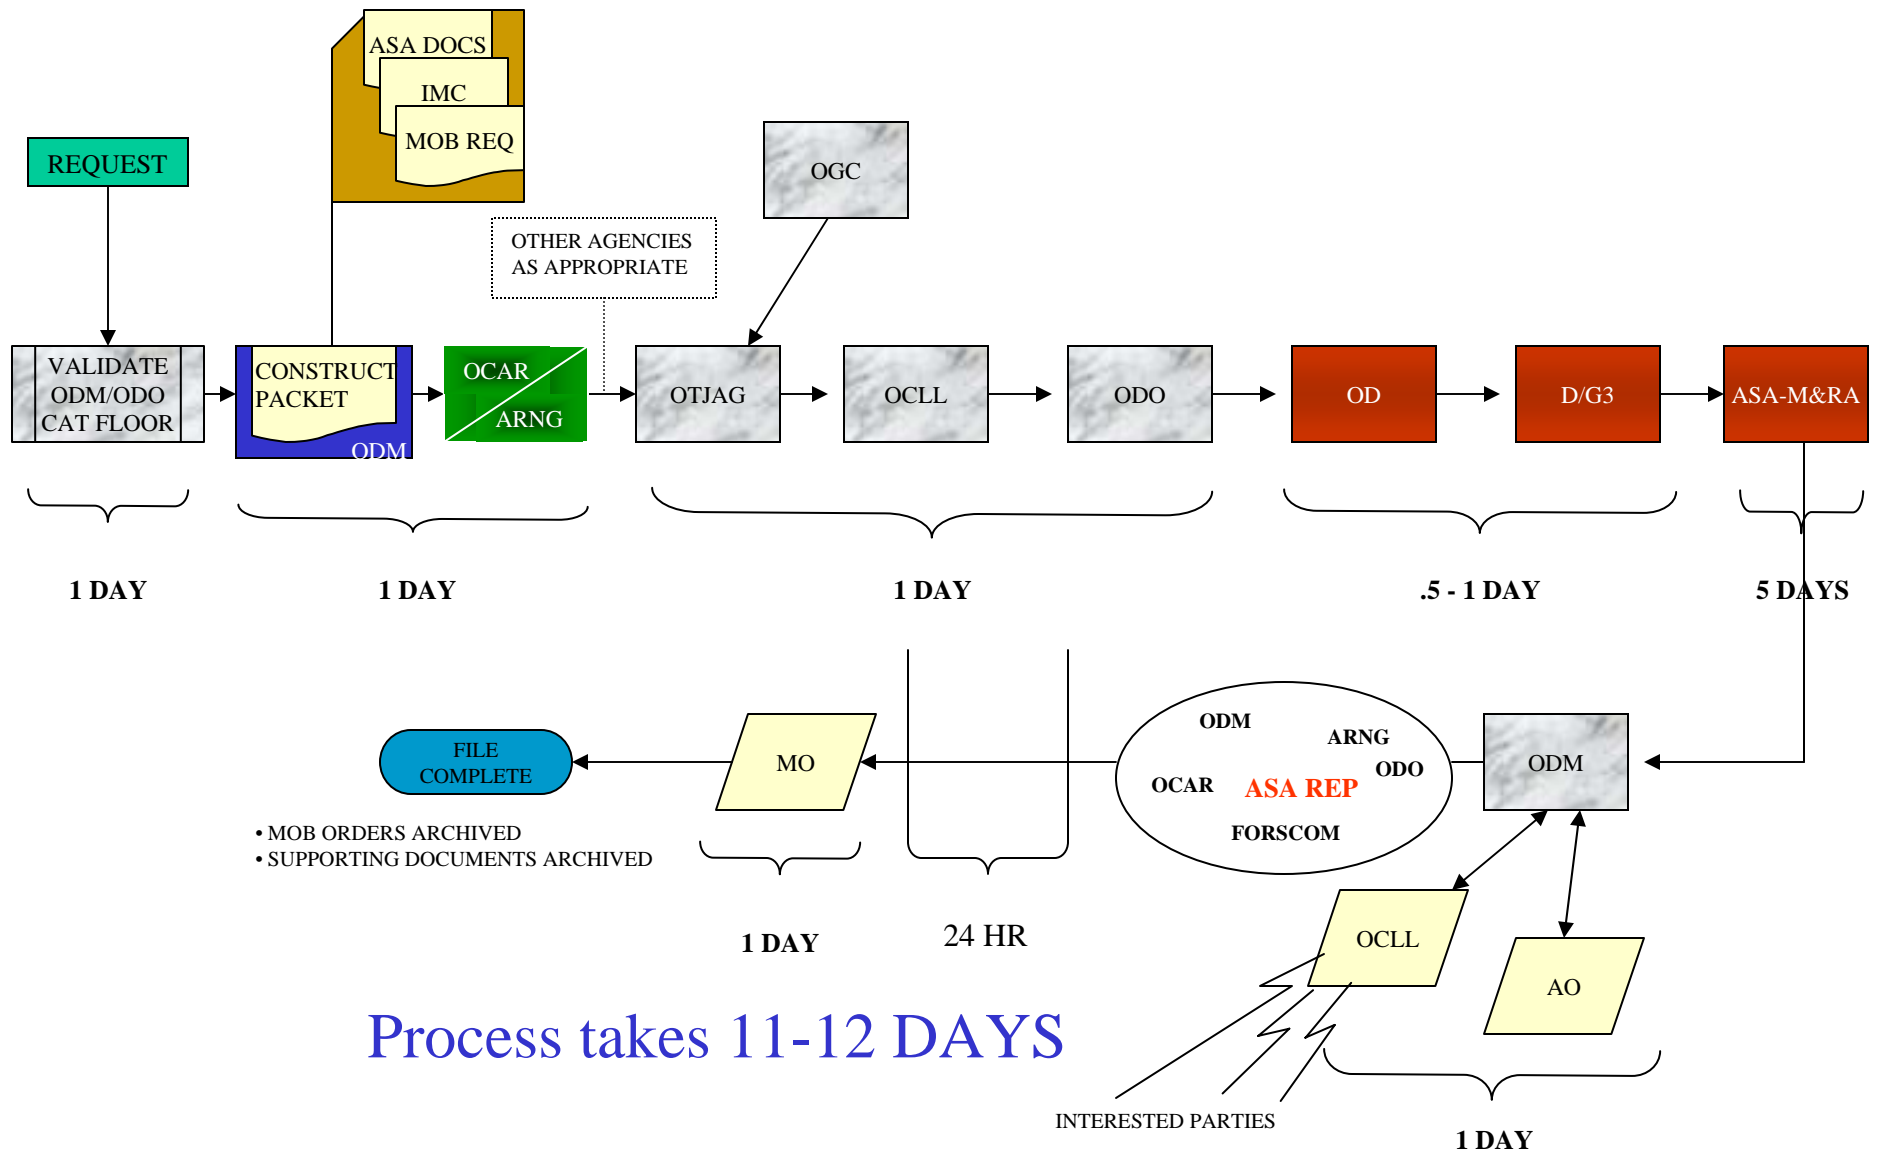

Previous Mob Process:
Force Provider staffed actions, *typed and faxed* requests for *alert, mob, demob and extensions* to HQDA Mobilization Division (DAMO-ODM).

Mob Div created a paper packet …
That packet required HQDA to:
- ➤ type the data into projections chart
- ➤ retype unit info in two different letters for signature
- ➤ retype the same unit info into the order
- ➤ retype that info into the mob database

## Process takes 11-12 DAYS

WHY DAMPS?

Department of the Army Mobilization Processing System

DAMPS: Data entered once
Force Provider creates "packet" with unit data in DAMPS then forwards electronically to HQDA

- ➢ MOB DIV manages electronic mob packet
  - ✓ Forwards it to the Crisis Action Team floor
  - ✓ DAMO – ODO (Current Operations Div)
  - ✓ DAMO – OD (Director, G-3 Operations)
  - ✓ G-3
  - ✓ ASA – M&RA
- ➢ *Mob order is system generated* (Mob Div)
- ➢ *Published through AMHS Message System*
- ➢ *Updates MDIS via attachment of a WAMS ID*

DAMPS "PACKET" PROCESSING

REQUEST

FORCE PROVIDER → ODM → CAT FLOOR REVIEW → ODO → OD → D/G3 → ASA-M&RA

AMHS ← MOB ORDER ← ODM MOB SHIFT LEADER

Reduces process to Hours or Days

WHY DAMPS?

Department of the Army Mobilization Processing System

Major benefits of DAMPS:

➢ **Changes paper based to SIPRNET Web-Portal**

➢ **Initial "Data Entry Point" for MDIS data**

➢ **Online support to functional stake-holders**

➢ **Real time visibility for processing Mob request**

  ✓ **Units – Single or *Multiple* UIC**

  ✓ **Individual Mob Requests**

    ***** **IMAs * IRRs * Retirees * COTTADs**

➢ **Data mining – electronic transfer of historical data**

DAMPS

Benefits Continue…

- UIC information – automatic retrieval of basic unit data
- Ad Hoc Reports
- Quicker, orders are approved faster
- More accurate, decreases human error
- Leadership at all levels have online visibility
- Eliminates issue of lost paper packets
- Online Electronic records
- Audit trail of processing times
- Automatic filing & storage of historical data
- Worldwide access & visibility to authorized users

DAMPS ROAD AHEAD

➢ **Processing of Individuals–**

   ✓ **COTTADs, IMAs, IRRs, Retirees**

   ✓ **Link and Feed from WIAS**

➢ **Build Extension and Amendment capability**

➢ **Increased flexibility in generating Ad Hoc Reports**

➢ **Fielding of additional MACOMs as Force Providers**

➢ **Link to AMHS and WAMS**

➢ **PKI Access Controls**

➢ **COOP Plan**

➢ **Institutionalize DAMPS Training**
